

Valdirlei Dias Nunes

August 04 — 26 1998
Exposição no 1º piso

Press Release

Exhibit composed by 15 small-sized paintings in oil on canvas, and three objects in bronze and wood. The artist portrays dislocated objects, at times functionless, that capture the eye in a mixture of familiarity and strangeness. These are unfinished objects, still lives without a subject that cannot be completely codified. A rich and scrupulous work, that walks away from symbolic matters, in favor of formal discussions.
